Unmatched Flexibility | Extremely Efficient | Superior Functionality
Semi-automatic stretch wrapping machine

Cobra G
Flexible, efficient and functional pallet wrapping solution

Unmatched Flexibility
Thanks to the rotating arm technology, the pallet load does not move during the stretch wrapping process. Therefore, the Cobra G is ideal for wrapping loads that are unstable, light, very heavy or odd-shaped – whatever the product type. The Cobra G comes standard with an independent floor stand, but can also be mounted to a column or wall. This innovative design also comes standard with an adjustable wrapping arm that can easily be modified to accommodate larger loads at no additional cost.

Extremely Efficient
The motorized power pre-stretch system with adjustable film tension control guarantees optimal film usage. Also, by providing variable film tension control throughout the wrap cycle, superior load containment can be achieved while eliminating film breaks and product damage. The patented film carriage ensures consistent performance and minimal film consumption.

Superior Functionality
Four individual wrap programs can be stored using the touch screen HMI for simple operation of the machine. The programs include eight functions which can be adjusted to meet the demands of the most challenging applications. The tilted carriage design wraps down to within 2 3/4” from the floor, wrapping loads securely to the pallet.

The rotating arm can be easily adjusted to achieve a wrapping diagonal of 78” or 87”; offering extreme versatility at no additional cost.

The power pre-stretch carriage offers optimal load containment and minimal film usage. It also allows for easy film threading.

Easy to use for simple operation and maximum functionality. Adjustments for the number of wraps, wrap pattern, film tension, overlap, overwarp, and up/down speed are standard.

Dimensions
Overall Height 122” (standard) 136” or 150” (optional)
Max. Pallet Height 86” (standard) 100” or 114” (optional)
Maximum Pallet Diagonal 78” or 90”
Equivalent Pallet Dimension 55”x55” or 64”x64”

Technical Details
Rotation Speed Up to 11 RPM
Capacity Up to 35 pallets/hr
Weight 1,570 lbs
Voltage 120 V - 1 phase - 60 Hz
Control PLC and touchscreen HMI
Film Width 20”
Max. film dia. 10”
Pre-stretch Level Up to 300%
Standard Mounting Floor Stand

Options
Height Extension Upgrades
Column Mount Kit
Mechanical Roping Device
